How to Vote.

The unlawful manner in which the

County Clerk has printed the ballots

for use in the city precincts makes

it impossible for the Democratic

method of stamping their ballots

in the county election. Although

formally notified, as required by the

Election Law, by the Democratic

party for counties that have not

been notified from the city at

last and written protest and has

placed their names upon the county

ballots as candidates contrary to the

provisions of the election law, and

require the votes of each ward to

elect one candidate and only one

and makes those who vote for more

than one assume the methods of the

common repeater. Of course a law

violating the law does not interfere

with the plans of the city and the

Republican position, but in order

that Democrats may not become

part to a fraud the following plan

of making their tickets is suggested:
